

ITALY Q3-25 VENTURE CAPITAL REPORT

Growth Capital is a European tech investment bank with offices in Milan, Madrid, and London.

We advise startups and scaleups on cross-border fundraising (€5–50M) and M&A transactions (EV range €10–100M). We also support corporate investors, family offices, PE funds, and VC funds in seizing high-potential tech opportunities.

Driving growth is at the core of our mission, providing **strategic financial solutions** to take innovative companies to the next level.

Methodology

- 1. The report includes (i) startups based in Italy and (ii) startups with foreign headquarters, Italian founders and +50% of employees in Italy
- 2. The database is created using **PitchBook** data (last consultation on **08/10/2025**) for rounds completed from 2020 to 2025, classified as Early-Stage VC and Late-Stage VC. PitchBook Verticals and Sectors (as defined in **point 9**) are assigned by Growth Capital (GC)
- 3. Data obtained following the procedure outlined in point 2 are integrated and compared with **round press releases**, when available. In case of discrepancies, information from the press releases is preferred. Then, data are compared and integrated with the **confidential information** provided to GC by **key investors active in the Italian VC ecosystem**
- 4. For each **round without stage indication** in the press release or in the PitchBook database, the **equity story** of the company is analyzed applying the following criteria:
 - 1. In case of first public funding rounds, (i) **Pre-seed** if the round size is **<€0.2M** or (ii) **Seed** if the round size is **>€0.2M**
 - 2. In case of existing funding history, stage is assigned on a case-by-case basis, choosing between Seed, Bridge, Series A, Series B, Series C, Series D+, Growth VC. For example, a €5M round which follows a Seed round of less than €2M is defined as Series A
- 5. All rounds that are **not unambiguously identifiable as VC rounds**, with **size undisclosed** or with size **below €50K** are excluded
- 6. All VC rounds in the form of **debt** are excluded; accordingly, for the **«mixed» equity and debt** VC rounds, **only the equity part** is considered. In the case of «mixed» rounds for which the exact split between equity and debt is **not disclosed**, information is asked on a **confidential** basis to the relevant startup or investors. If the split is not provided, it is assumed that round consists entirely of equity
- 7. The procedure described in point 6 is also followed for rounds where the total announced amount includes sales of quotas/shares on the secondary market and for rounds with funding subject to milestones
- 8. Crowdfunding rounds are monitored by directly consulting the four most important Italian crowdfunding platforms in terms of amount invested
- 9. «**Verticals**» refers to the 242 categories uniquely used by PitchBook to define the type of sectorial/market activity of the startups under analysis. «**Sectors**» refers to the 10 sectors defined by GC, which are assigned according to the clustering of the 242 PitchBook verticals (see <u>Appendix</u>)
- 10. The annual and quarterly figures in each Venture Capital Report may differ from previous reports due to constant revisions and updates to the underlying database

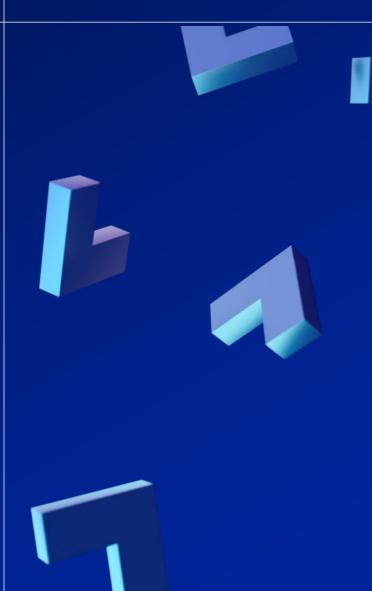

Table of Contents

- 1. Key Numbers in Italy: Q3-25 and 2025 YTD
- 2. VC in Europe: Q3-25, 2025 YTD, and Historical Evolution

VC IN EUROPE Q3-25, 2025 YTD, AND HISTORICAL EVOLUTION

2.1. VC in Europe: Historical Evolution by Year

2025 YTD is in line with 2024 both in terms of number of rounds and amount invested. Likewise, the impact of mega rounds¹ is stable since 2023

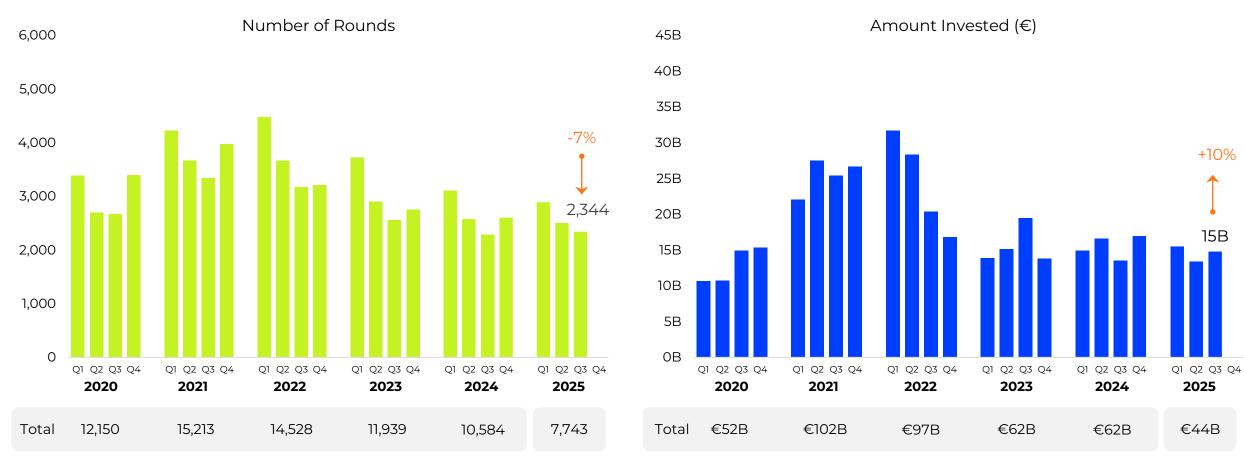

Sources: a. Growth Capital elaboration based on PitchBook data; **b.** PitchBook Q3 2025 European Venture Report Preview. **Notes: 1.** For the purposes of the report, mega rounds are defined as transactions where the equity component is equal to or exceeds €100M.

2.2. VC in Europe: Historical Evolution by Quarter

Dealmaking pace is slowing since the beginning of the year, reaching 2,344 rounds in Q3-25. On the other hand, deal amount remains stable over the last 11 quarters at around €15B^{a,b}

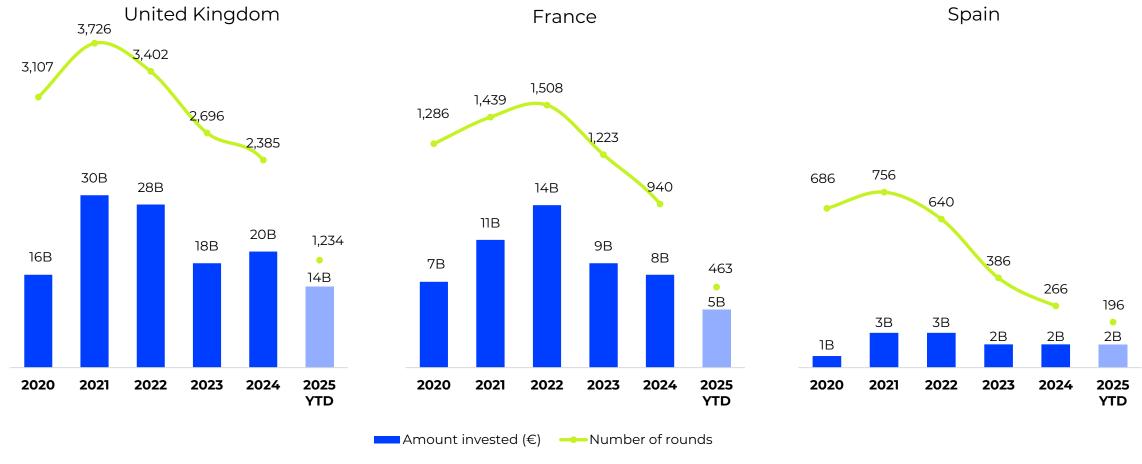

Sources: a. Growth Capital elaboration based on PitchBook data; b. PitchBook Q3 2025 European Venture Report Preview.

2.3. VC in UK, France, Spain: Historical Evolution by Year

The UK and France are in line with last year in terms of amount invested, albeit declining by number of rounds. Conversely, Spain is in line by number and outpacing by amount

Sources: a. For the United Kingdom and France data, Growth Capital elaboration is based on PitchBook data, excluding rounds with undisclosed size. For Spain, the Growth Capital database.

3.

VC IN ITALY

 3.1. Q3-25, 2025 YTD, AND HISTORICAL EVOLUTION
 3.2. SECTORS, VERTICALS, TOP 5 DEALS, EXITS, AND NEW FUNDS

3.1.1. VC in Italy: Historical Evolution by Year

In terms of number of rounds and amount invested without mega rounds 2025 YTD is in line with 2024, but still lacks the presence of mega rounds

Notes: 1. Mean without outliers. For the purpose of the report, outliers are defined as rounds that are very far from the average amount for the quarter.

Milan | Madrid | London

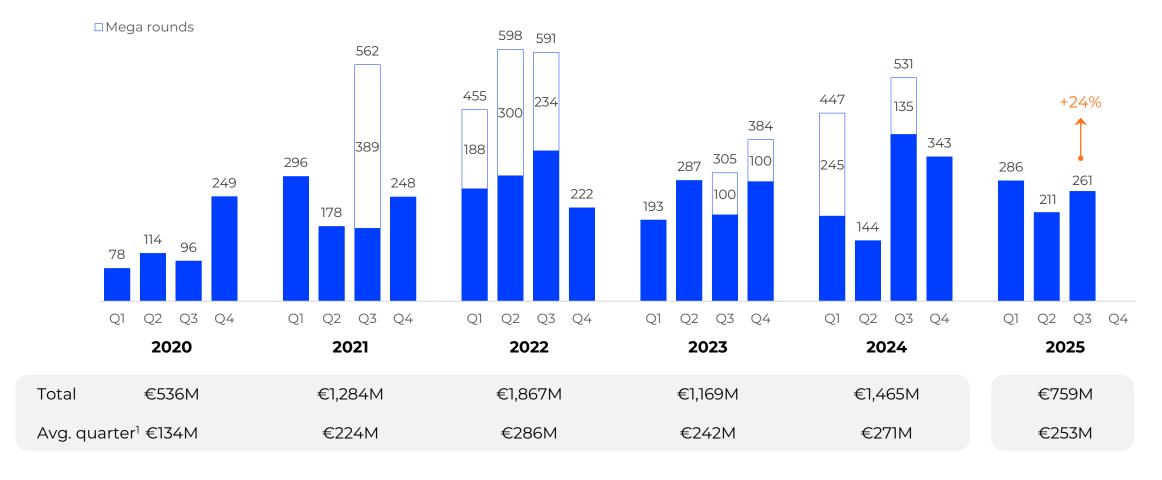

3.1.2. VC in Italy: Number of Rounds By Quarter

With 75 rounds closed, Q3-25 shows a decline with respect to the previous three quarters. As usual, since 2023, the impact of confidential rounds continues to be significant

3.1.3. VC in Italy: Amount Invested by Quarter

Q3-25 is the fourth consecutive quarter without mega rounds. Excluding mega rounds, the amount invested is in line with the last two years

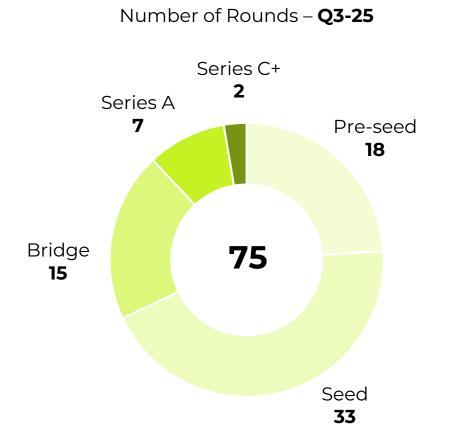

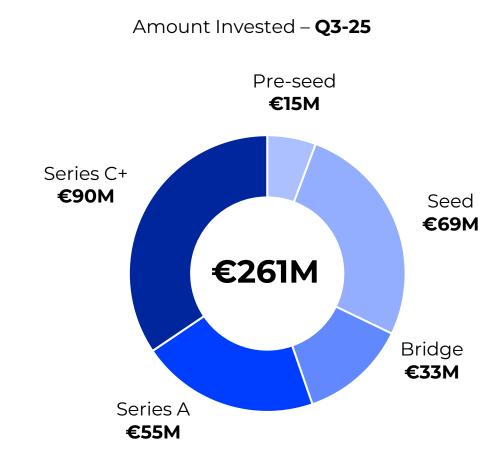

Note: 1. Average amount invested during the quarter without mega rounds.

3.1.4. VC in Italy: Analysis by Type of Round Q3-25

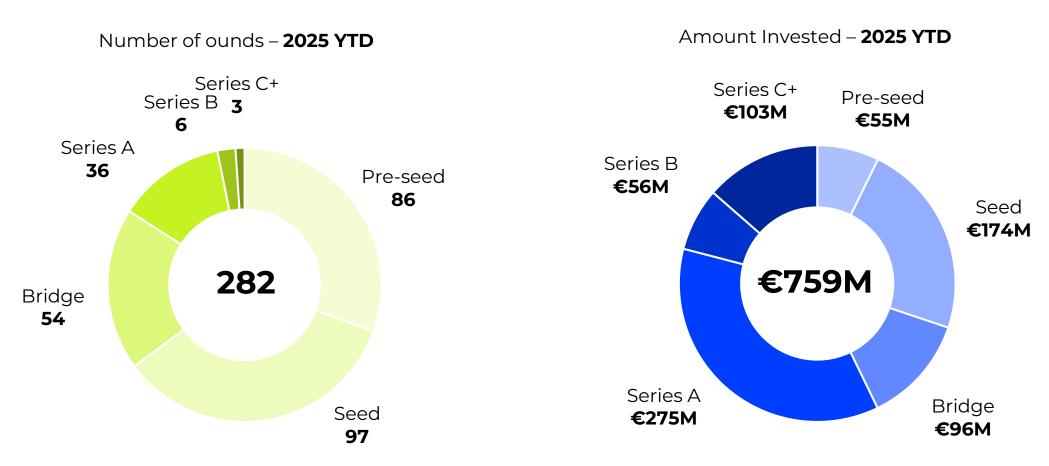

Pre-Seed and Seed represented 68% of the rounds closed in Q3-25, while no Series B has been recorded. In terms of amount, the 2 Series C rounds impacted for 34%

3.1.5. VC in Italy: Analysis by Type of Round 2025 YTD

In 2025 YTD, 1 out of 5 rounds was a Bridge, while Series A catalyzed 36% of the amount invested. The impact of Series B+1 (20% of amount invested) is still a third of European standards2

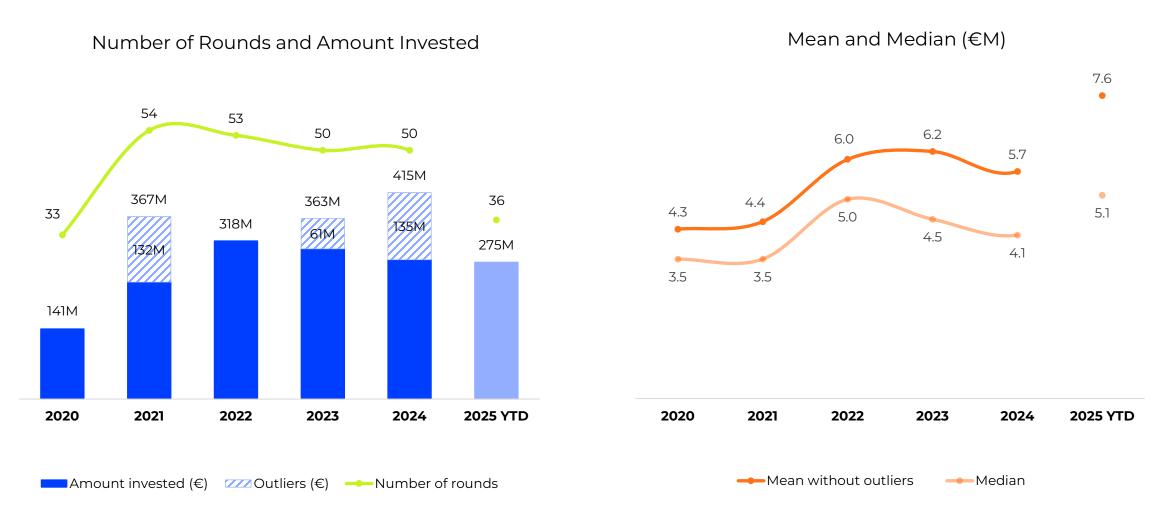

Notes: 1. Series B+ category includes Series B, Series C, Series D, Series E and Growth VC rounds; 2. Growth Capital elaboration based on PitchBook data shows that over the period 2018-H1-25 the average weight of Series B+ rounds on the total amount invested is equal to 61%

3.1.6. VC in Italy: Focus on Series A (1/2)

Excluding outliers, the amount invested in Series A rounds in 2025 YTD is already comparable to the FY2024. As predicted in 2021, the mean and median Series A are steadily growing

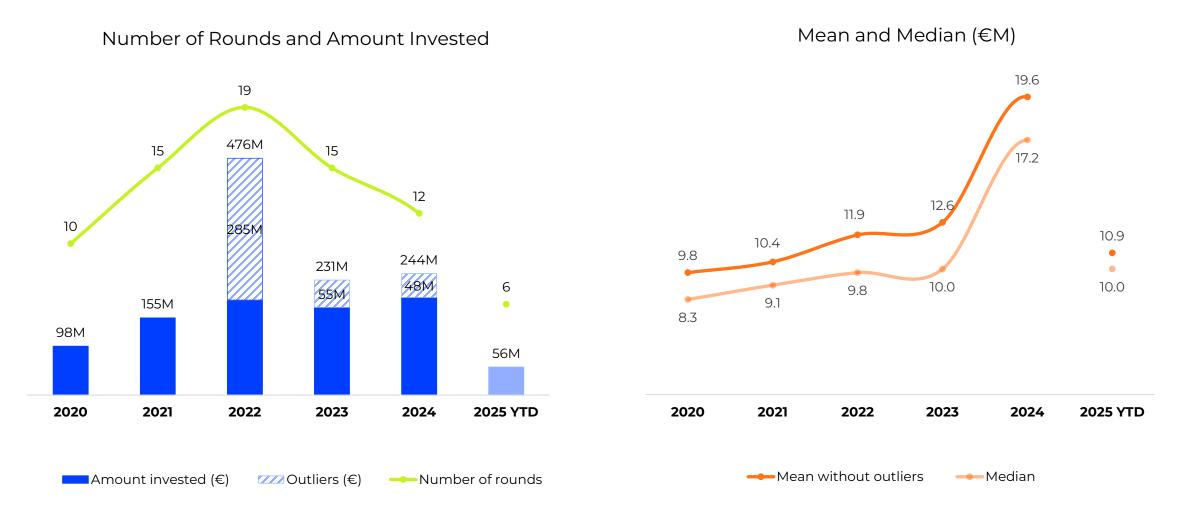

3.1.7. VC in Italy: Focus on Series A (2/2)

The number of rounds and amount invested at the Series A stage in Q3-25 have been lower than the average of the last two years

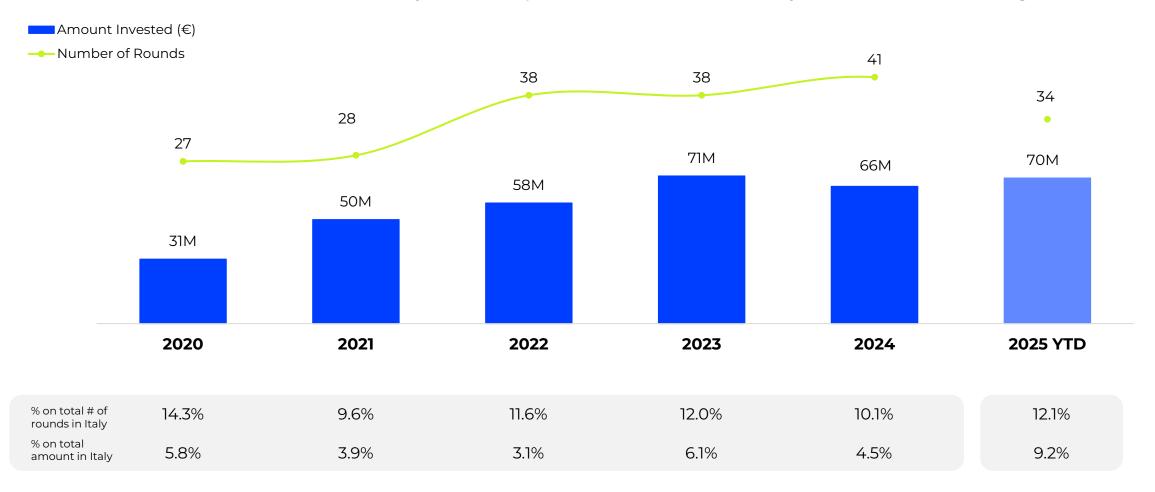

3.1.8. VC in Italy: Focus on Series B

The number of rounds and the amount invested at the Series B stage in 2025 YTD has been considerably lower than in the last three years

3.1.9. VC in Southern Italy: Historical Evolution by Year

VC in Southern Italy¹ is steadily growing over the last six years. Given the €70M raised in 34 rounds in 2025 YTD, the current year is expected to be the best year ever for the region

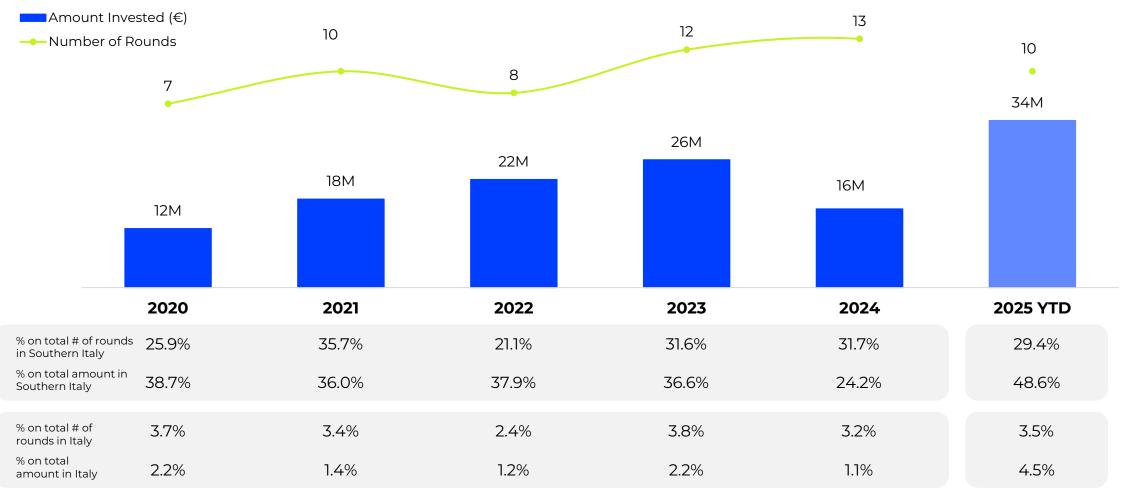

Notes: 1. Southern Italy regions are: Abruzzo, Basilicata, Calabria, Campania, Molise, Puglia, Sardegna, Sicilia

3.1.10. VC in Campania: Historical Evolution by Year

The amount invested in 2025 YTD has already surpassed that of all previous years. Also in terms of number of rounds, 2025 is projected to be the best year ever

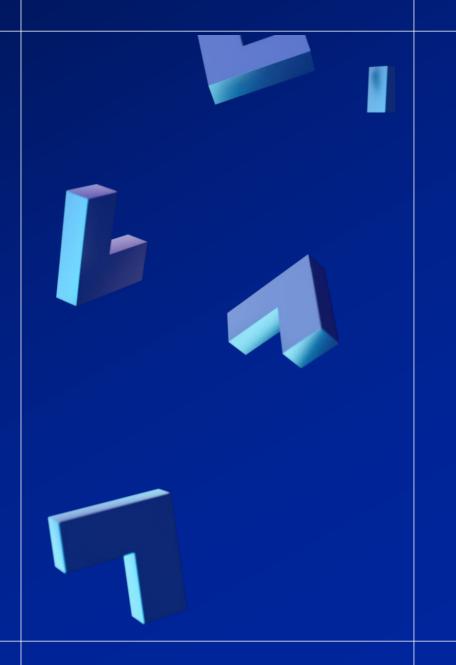

3.

VC IN ITALY

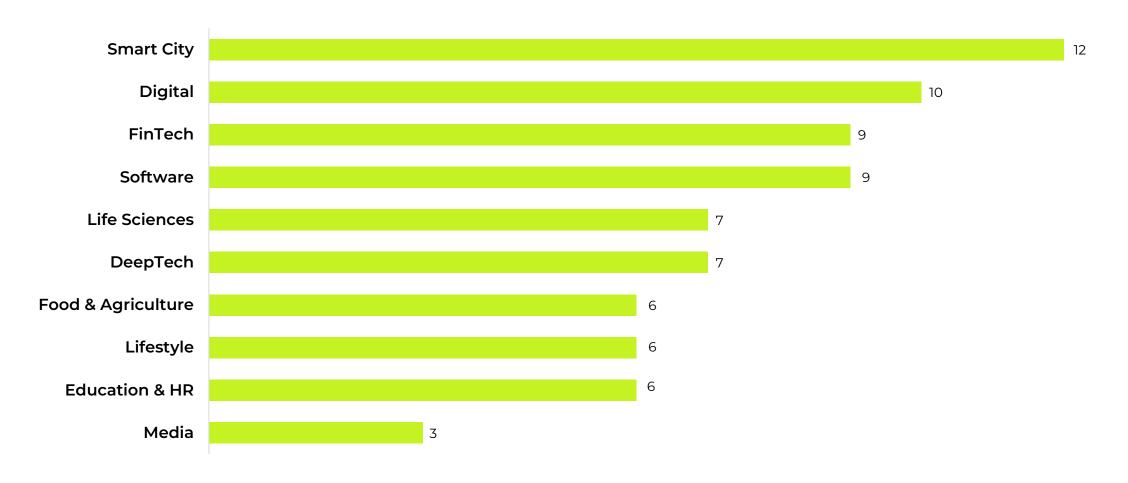

3.1. Q3-25 AND HISTORICAL EVOLUTION

⇒ 3.2. SECTORS, VERTICALS, TOP 5
DEALS, EXITS, AND NEW FUNDS

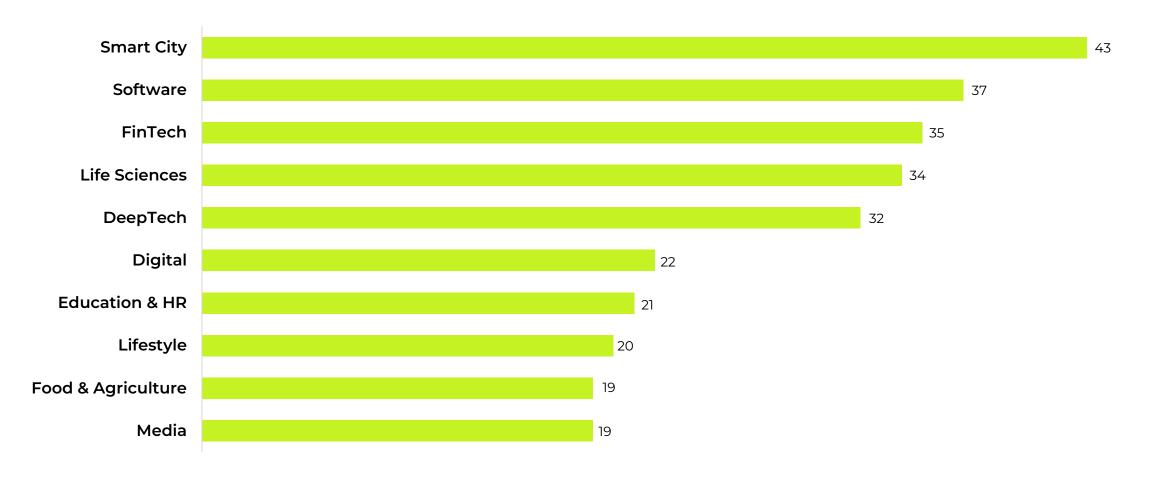

3.2.1. VC in Italy: Sector Analysis by Number of Rounds Q3-25

Apart from Smart City, rounds in Q3-25 have been evenly distributed across sectors. After long time, Digital and FinTech are returning in the upper part of the ranking

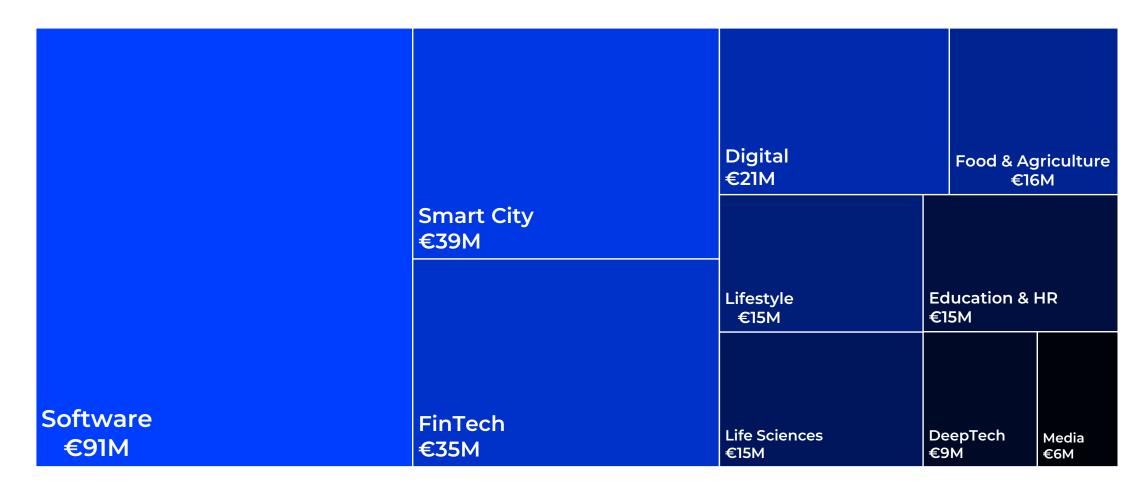

3.2.2. VC in Italy: Sector Analysis by Number of Rounds 2025 YTD

As already observed in the past, and consistently with major ongoing trends at the European level, Smart City attracted most of the rounds in 2025 YTD

3.2.3. VC in Italy: Sector Analysis by Amount Invested Q3-25

In Q3-25 the top 3 sectors by amount invested (Software, Smart City, and FinTech) catalyzed almost two thirds of the total

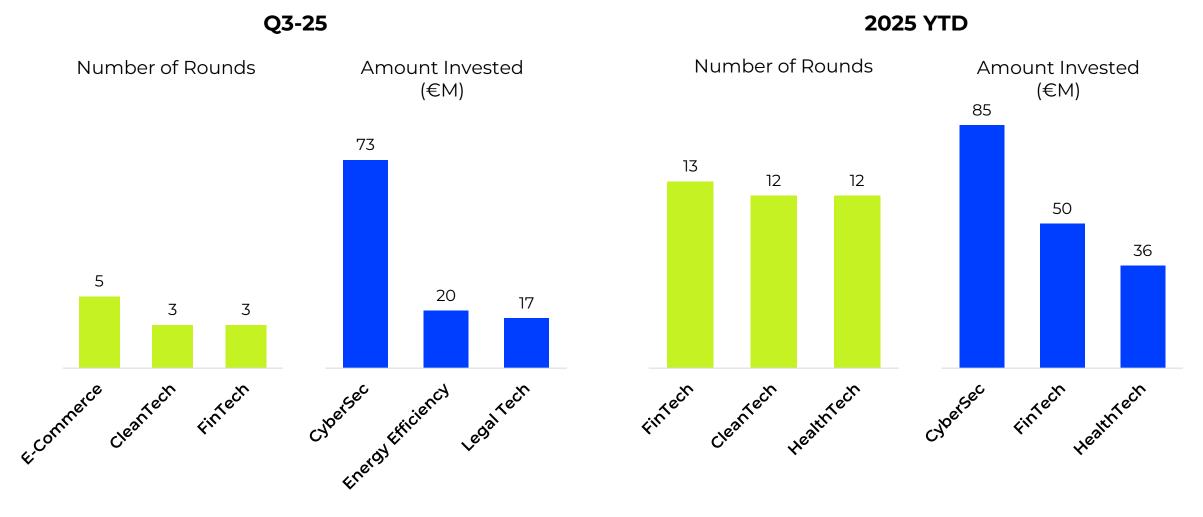

3.2.4. VC in Italy: Sector Analysis by Amount Invested 2025 YTD

Since no mega rounds has been recorded in 2025 YTD, the distribution by amount invested across sectors is simply proportional to the number of rounds

3.2.5. VC in Italy: Top 3 Verticals

FinTech and CleanTech verticals catalyzed the highest number of rounds in 2025 YTD, while the ranking in terms of amount is primarily driven by the impact of single large rounds

Milan | Madrid | London

3.2.6. VC in Italy: Top 5 Deals Q3-25

СОМРАНУ	SECTOR	STAGE	SIZE	INVESTORS ¹
	Software	Series C	€70M	Balderton Capital, Supernova Invest, Lakestar, 33N Ventures, United Ventures, Partech

Note: 1. Investors written in white are Italian, and investors written in green are international, based on HQ location.

3.2.8. VC in Italy: Exits Q3-25

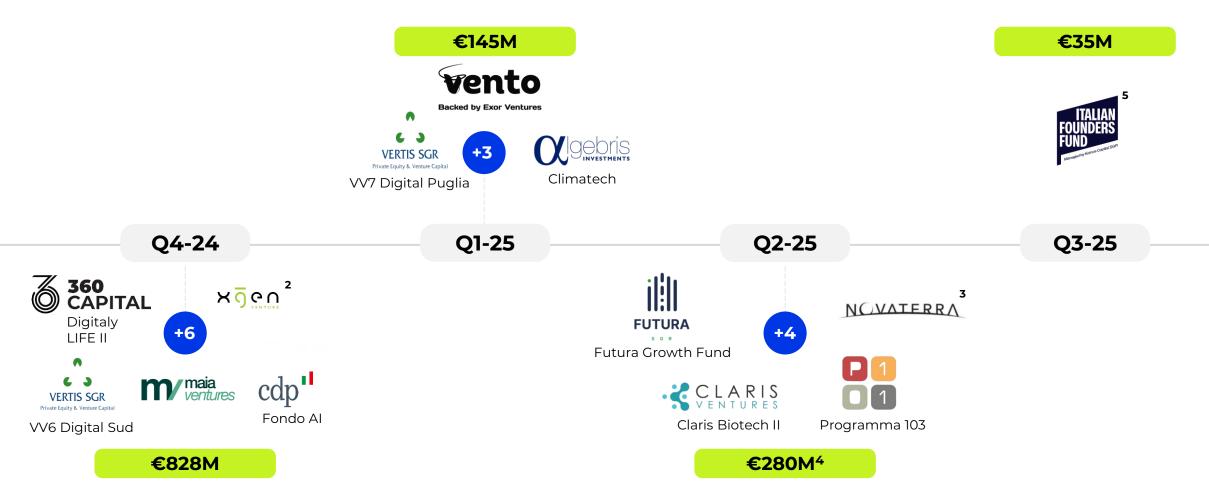

TARGET	EXIT TYPE	ACQUIROR / IPO MARKET	SECTOR	ENTERPRISE VALUE	PERCENTAGE ¹
Prima Assicurazioni	M&A	AXA	FinTech	€1,000M	51%
Creative Harbour	M&A	Cosmico	Education & HR	Undisclosed	100%
Euclidea SIM	M&A	Banca IFIS	FinTech	€20M	100%
Audiolux	M&A	Superstudio Events	Media	Undisclosed	100%
Xtream	M&A	TeamSystem	Software	Undisclosed	100%
Kipy	M&A	Fees	Software	Undisclosed	100%
Opyn	M&A	AATech	FinTech	€20M	100%
Fleap	M&A	Young Group	FinTech	Undisclosed	Undisclosed
CONFIDENTIAL	M&A	CONFIDENTIAL	FinTech	Undisclosed	Undisclosed

Note: 1. Transactions involving public listing or the sale of the majority (50%+) of corporate quotas or shares through M&A of startups within the methodological perimeter are considered exits.

3.2.9. VC in Italy: New VC Funds

For the first time in the last two years, in Q3-25 no new fund has been announced. However, €35M has been added to the available dry powder thanks to the second closing of IFF⁵

Notes: 1. Size reached at first closing on the PR date. 2. Final closing of the raise at €180M, with €20M additional to the €160M announced in Q2-24. 3. Novaterra is an evergreen investment holding company. 4. The number does not include the amounts raised by Claris Ventures and Novaterra as these have not been made public. 5. €35M raised from IFF, bringing the total to €90M including the €55M from Q2 2024.

FINAL REMARKS

4.1. Final Remarks: Europe

Q3-25 & 2025 YTD

Q3-25 has seen an amount invested consistent with the previous 12 quarters, while the number of rounds decreased. 2025 YTD is on par with 2024 YTD in terms of number of rounds and in terms of amount invested

Dealmaking activity has been concentrated in larger rounds, with 40% of the invested amount driven by AI businesses¹. Geographically, Southern Europe has gained market share compared to other more mature ecosystems, such as the UK

Late stage companies continue to show significant interest in venture debt (€13.6B in 339 debt deals) but at a lower level compared to the record-high 2024 (€26.9B in 711 debt deals)¹, while experiencing limited exit opportunities

Outlook

2025 is expected to record a number of rounds and investment amounts comparable to the past two years. Regional disparities, though decreasing due to the catch-up of less mature ecosystems like Spain, will persist in the medium term

IPO activity may rebound and become preferred over venture debt, driven by a more positive outlook for public equity markets

As anticipated, secondary transactions are becoming more common, particularly as an exit strategy for VC funds

Source: PitchBook European Venture Report Q3-25

4.2. Final Remarks: Italy

Milan | Madrid | London

Q3-25 & 2025 YTD

Consistently with the last two years, also in Q3-25 the presence of Bridge rounds and the impact of confidential rounds continue to be significant. Without mega rounds, 2025 YTD aligns with 2024 YTD both in terms of number of deals and in terms of amount invested

While the Series A stage continues to perform well, the Series B stage (no rounds in this quarter and only six recorded for 2025 YTD) appears to be the most challenging turning point in the startup growth path

While exits remain generally scarce and of low value, the acquisition of Prima by AXA highlights the potential of the Italian ecosystem to produce European champions

Outlook

Excluding mega rounds, 2025 is on track to exceed €1B in amount invested and to become the best year ever in terms of number of rounds, since Q4-25 is expected to outperform recent quarters

International investors' attention is expected to be constantly higher, as shown by the top 5 rounds of the year, along with the growing international recognition of Italian events such as the recent Italian Tech Week

As the market keeps on maturing, the more frequent and larger Series A rounds (on average 50 per year over the last 4 years, together with the doubling of mean and median) should increase the presence of Series B+ rounds in the medium term

growth capital

Growth Capital is a tech investment bank in the venture capital industry, with a 90% success rate and offices in Milan, Madrid and London. The firm provides top-tier advisory services tailored to a wide range of deals and stakeholders, with a focus on cross-border M&A and fundraising transactions, including Series A, B and C. Growth Capital assists scaleups throughout the fundraising and M&A process enabling the best entrepreneurs to nurture their growth without diverting their attention from running their companies. Growth Capital also supports corporations and investors in identifying the most promising deals in the market

Italian Tech Alliance - formerly VC Hub Italia – is the Italian association of venture capital, innovation investors (business angels, family offices and corporations) and Italian innovative startups and SMEs. It was founded in 2019 by the managers of the leading venture capital funds active in Italy and today has over 60 investor members, more than 140 of Italy's leading startups and innovative companies, and 26 supporting members. Italian Tech Alliance investors manage assets of about 1.3 billion euros and have invested in more than 250 Italian startups with high growth potential and strong technology content

Actual and forecast data presented in the Report are extracted from public databases and sources. Growth Capital S.r.l. will in any case not be responsible for any errors, omissions and/or inaccuracies with regard to financial data and analysis
